

a Reviewed input changes**b Information-deletion controls**

	Claim fidelity	Probability available	Provenance available
No qualification	75%	100%	100%
No probabilities	100%	0%	100%
No provenance	100%	100%	0%
No reconsideration	100%	0%	100%

c Recorded provider cost**d Replication and scope**

One assistant conversation.
 No independent model-family replication.
 No provider-model comparison.

Equivalent inputs reuse reviewed text;
 counts are calculated, not predicted.
 These are consistency and availability checks,
 not model-robustness effect estimates.
