

From expert responses to a shared claim set

ROUND 1 → ROUND 2 / Figure design combining illustrative panels and a provisional pilot

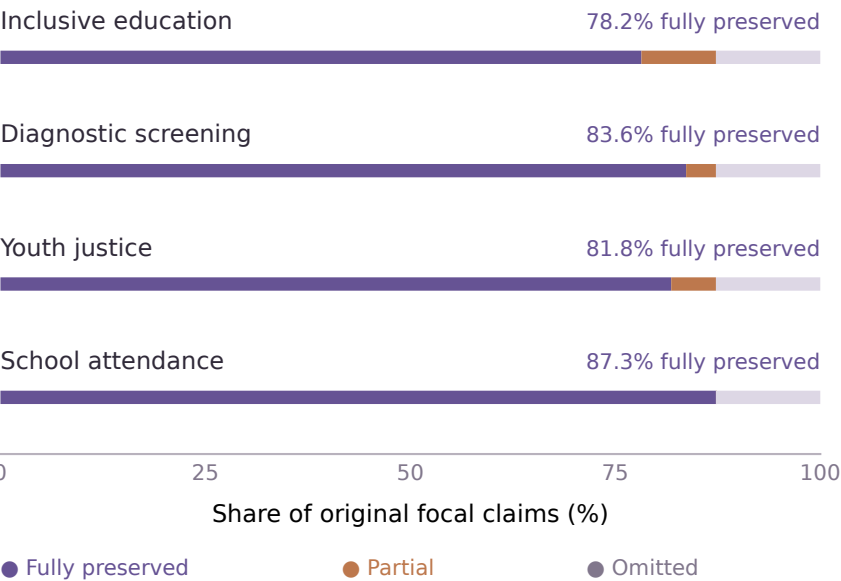

a Overall extraction quality

ILLUSTRATIVE

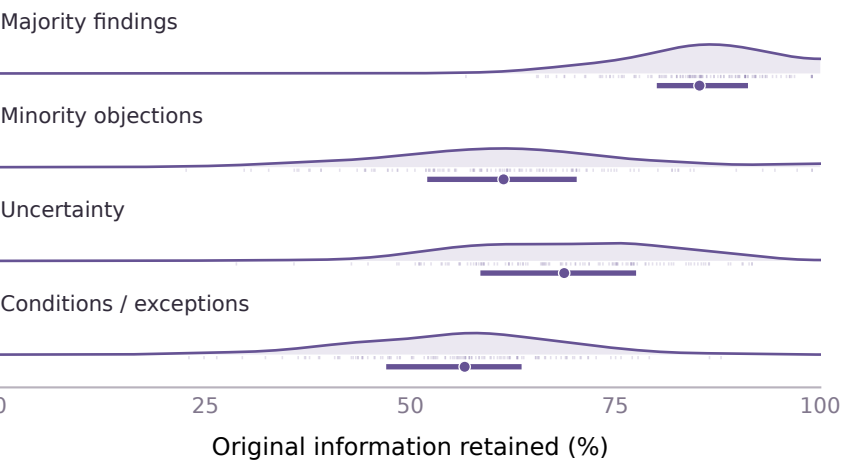

b How much meaning survives?

SAVED PILOT · UNBLINDED SELF-REVIEW

c Which information is lost?

ILLUSTRATIVE · INFORMATION TYPES

a 320 simulated consultations; contours show density, not uncertainty. b Six panels and 55 focal-claim occurrences per scenario.

c 120 separate simulated cases per type; dot and line show median and middle 50%. Panels do not share a measured cohort.

Pilot limitation: the eight-claim cap accounts for all 28 omissions; grouping loss was not isolated. Illustrative patterns are not findings.
